

Ranges of Costume Designers by Positions Per Season in Relation to Total Number of Costume Designers and Costume Design Positions

The following statistics are based on number of positions per designer over all seven seasons examined.

RANGES OF COSTUME DESIGNERS BY POSITIONS PER SEASON IN RELATION TO TOTAL NUMBER OF COSTUME DESIGNERS AND COSTUME DESIGN POSITIONS

In costume design, designers with an average of less than one position per season (less than 7 designs over the 7 seasons) were 75.9 percent of all costume designers, and they held 30.6 percent of all costume design positions. Costume designers with an average of one to less than three positions per season (at least 7 but less than 21 designs over the 7 seasons) were 18.9 percent of all costume designers, and they held 41.0 percent of all costume design positions. Costume designers with an average of three to less than five positions per season (at least 21 but less than 35 designs over the 7 seasons) were 4.4 percent of all costume designers, and they held 21.9 percent of all costume design positions. Costume designers with an average of five to less than seven positions per season (at least 35 but less than 49 designs over the 7 seasons) were 0.9 percent of all costume designers, and they held 6.6 percent of all costume design positions.
