

## Ranges of Projection/Video Designers by Positions Per Season in Relation to Total Number of Projection/Video Designers and Projection/Video Design Positions

The following statistics are based on number of positions per designer over all seven seasons examined.

RANGES OF PROJECTION/VIDEO DESIGNERS BY POSITIONS PER SEASON IN RELATION TO TOTAL NUMBER OF PROJECTION/VIDEO DESIGNERS AND PROJECTION/VIDEO DESIGN POSITIONS

In projection/video design, designers with an average of less than one position per season (less than 7 designs over the 7 seasons) were 86.8 percent of all projection/video designers, and they held 45.3 percent of all projection/video design positions. Projection/video designers with an average of one to less than three positions per season (at least 7 but less than 21 designs over the 7 seasons) were 12.7 percent of all projection/video designers, and they held 50.3 percent of all projection/video design positions. Projection/video designers with an average of three to less than five positions per season (at least 21 but less than 35 designs over the 7 seasons) were 0.5 percent of all projection/video designers, and they held 4.4 percent of all projection/video design positions.
